

# Annual Listing of Federally Obligated Projects

FFY 2007 (October 1, 2006 to September 30, 2007)

The *Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users* (SAFETEA-LU, Public Law 109-59, August 10, 2005) requires that an annual listing be prepared and “include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall ... identify each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding program year, and the Federal funding remaining and available for subsequent years.”

The *Memorandum of Understanding, Procedures for 2007-2010 STIP and TIP Modifications* signed in July 2006 by HATS, CAT and PennDOT responds to this directive, requiring a *Summary Report* of all obligation and encumbrances be provided at the end of the federal fiscal year.

This report lists all transportation projects in the HATS region obligated in the federal fiscal year 2007 (October 1, 2006 to September 30, 2007).

*FHWA defines **obligation** as the federal government’s legal commitment (promise) to pay or reimburse the states or other entities for the federal share of a project’s eligible costs. Thus, an obligated project is one that has been approved by the federal government for reimbursement. Obligated projects were not necessarily initiated or completed in this year. The obligated project cost reflected in this listing also may not be equal to the final project cost.*

## HARRISBURG AREA TRANSPORTATION STUDY

(HATS)

## HOW TO READ THIS REPORT

This report identifies specific projects and provides details regarding obligations and encumbrances/expenditures on those projects. This report also shows the state match associated with projects that had obligations during the period.

The following is an explanation of the items in this report:

- The first column “**MPMS**” is the project identification number in the multi-modal project management system (MPMS).
- “**Short Title**” is the name of the project as it can be found in MPMS.
- “**Phase**” is the list of phases associated with a particular project that is on the Transportation Improvement Program (TIP).
- “**District**” is the engineering district where the project is taking place.
- “**County**” is the county where the project is taking place.
- “**SR**” and “**Section**” define the State route and section number assigned to the project.
- The federal funds obligated during the period can be found under “**Obligations.**” These represent federal authorizations to proceed with specific project phases.
- The corresponding state match, if any, can be found in the column entitled “**State Match.**”
- “**Encumbrances/Expenditures**” are 100% state funds associated with the project, and are also reported by phase.
- The next four columns are the dollars programmed on the TIP for the project sorted by TIP year, the proceeding four columns are totaled in the last column entitled “**Program Total.**”
- Entries that contain a “0” in the “Program Total” column are individual project phases that were not on the TIP as of September 30, 2006 and were since then added to this report.
