

Federal Funding Eligibility

Highway projects must be...

- On the Federal-Aid system
Includes all functional classifications except Rural Minor Collector and Local

Bridge projects must be...

At least 20 feet in length, and
Sufficiency rating less than 80

50-80 eligible for rehabilitation

0 – 50 eligible for replacement

Municipal/County bridge projects must be included on a State bridge bill capital budget to be eligible to receive State funds

Also consider...

...using federal funds requires building to federal standards. Please be aware that this affects the required the 20% local match.

...federal earmarked funds, while they are required to appear on the TIP, do not commit HATS to fund the portion of the project not covered by the earmark --

- you may have to find other sources to complete the project's funding, or
- other projects already on the TIP (including your own) may be delayed to make room on the program for the earmark
