**PennDOT Project Id:** 114559

**Project Administrator:** PennDOT

**Title:** Systemic Low-Cost Improvements for Stop

**Improvement Type:** Safety Improvement

**State Route:** 944

**Municipality:** East Pennsboro (TWP)

**Air Quality Status:** Exempt from Regional Conformity Analysis

**Actual Construction Bid Date:**

**Estimated Construction Bid Date:** 9/29/22

**Location:** SR 944 (Wertzville Rd) between US 11/15 and SR 34 in Cumberland County  
SR 116 (Fairfield Rd) between Bullfrog Rd and SR 16 Waynesboro Pk) in Adams County  
SR 3054 (Richland Ave) at the intersection of Richland Rd and Kings Mill Rd in York County

**Project Description:** This project consists of safety improvements on SR 944 (Wertzville Road) between US 11/15 and SR 34 in Cumberland County, SR 116 (Fairfield Road) between Bullfrog Road and SR 16 Waynesboro Pike) in Adams County, SR 3054 (Richland Avenue) at the intersection of Richland Road and Kings Mill Road in York County.

This project recommends implementing a combination of the applicable systemic signing and pavement marking improvements at stop-controlled intersections described in the 2012 District Guidance for Intersection Safety Implementation Plan (ISIP) at 12 intersections selected from three Road Safety Audits (RSAs) conducted by District 8-0. The three RSAs were for SR 0944 (Wertzville Road) in Cumberland County, SR 0116 (Fairfield Road) in Adams County, and SR 3054 (Richland Avenue) in York County and all recommended similar stop-controlled intersection improvements as a low-cost safety improvement for the study corridors.

SR 0944 (Wertzville Road.) between US 11/15 and SR 0034 is generally a two-lane undivided roadway that transitions from an urban curbed section to a rural two-lane roadway. Where Wertzville Road. intersects with I-81 the section widens out and is signalized at the I-81 ramps. There are over 50 stop-controlled intersections within the RSA study length.

SR 0116 (Fairfield Road.) between Bullfrog Road. and SR 0016 (Waynesboro Pike) is generally a two-lane undivided roadway that transitions from an urban curbed section in Fairfield, PA to a rural two-lane roadway. SR 0116 is the primary arterial utilized by motorists unfamiliar with the area to access Liberty Mountain Resort. There are 22 stop-controlled intersections within the RSA study length.

SR 3054 (Richland Avenue) is generally a four-lane undivided roadway north of Country Club Road with residential, commercial, and industrial roadside development along both sections.

The intersections for the three RSAs have been combined into one project to aggregate the systemic stop-controlled intersection countermeasures into one project.

The proposed countermeasures will target the high crash stop-controlled intersections in the RSA study areas and contribute to a reduction in crashes experienced on all three corridors.

**Municipality:** Middlesex (TWP)

**Title:** Systemic Roadway Departure Low Cost Safety

**State Route:** Improve 944

**Air Quality Status:** Exempt from Regional Conformity Analysis

**Actual Construction Bid Date:**

**Estimated Construction Bid Date:** 9/29/22

**Location:** SR 944 (Wertzville Rd) and SR 696 (Shippensburg Rd) in Cumberland Cnty  
 SR 116 (Fairfield Rd) in Adams Cnty  
 SR 2002 (Springwood Rd) and SR 3054 (Richland Ave) in York Cnty  
 SR 3012 (Jack Rd) in Franklin Cnty  
 SR 2015 (Sandbeach Rd) in Dauphin Cnty

**Project Description:** This project may consist of safety improvements on SR 944 (Wertzville Road) and SR 696 (Shippensburg Road) in Cumberland County, SR 116 (Fairfield Road) in Adams County, SR 2002 (Springwood Road) and SR 3054 (Richland Avenue) in York County, SR 3012 (Jack Road) in Franklin County, SR 2015 (Sandbeach Road) in Dauphin County. This project recommends implementing a combination of applicable systemic roadway departure improvements as described in the 2012 Pennsylvania Roadway Departure Safety Implementation Plan at 18 locations:

Fairfield Road (SR 116) in Carroll Valley Borough, Adams County  
 Wertzville Road (SR 944) in Middlesex and East Pennsboro Townships, Cumberland County  
 Shippensburg Road (SR 696) in Hopewell Township, Cumberland County  
 Springwood Road (SR 2002) in York Township, York County  
 Hill Church Road/Thompson Road (SR 4004) in North Annville Township, Lebanon County  
 Jack Road (SR 3012) in Hamilton Township, Franklin County  
 Sandbeach Road (SR 2015) in East Hanover Township, Dauphin County  
 Richland Road (SR 3054) in Spring Garden Township, York County

Seven of the locations were selected from the Statewide HSM Network Screening and the remaining 11 locations are portions of corridors studied in two Road Safety Audits (RSAs) conducted by District 8 0. The two RSAs were for PA 944 (Wertzville Road) in Cumberland County, and PA 116 (Fairfield Road) in Adams County. Both RSAs recommended similar roadside departure improvements (enhanced signing and marking improvements on curves) as a low cost safety improvement for the study corridors. Additionally, edge line rumble strips were recommended along the Wertzville Rd. study corridor.

The three proposed systemic RDIP improvements included in this project are:

- \* Enhanced Sign and Marking Improvements for Curves 14 curve locations
- \* High Friction Surface Treatment 3 locations
- \* Edge Line Rumble Strips 1 corridor

The locations have been combined to aggregate the systemic RDIP countermeasures into one project.

The proposed countermeasures will target the roadside departure crashes in the RSA study areas and high crash location curves identified in the HSM Statewide Network Screening. This project should contribute to a reduction in crashes experienced on the study and network screening corridors.

One HFST project is not RDIP focused but was included with this project to aggregate the HFST projects into a group for efficiency in advancing an HFST project. That location is the SR 3054 approaches to the Richland Avenue/Kings Mill Road intersection. HFST was recommended in the SR 3054 RSA for this location to address the high crash history at the stop controlled intersection.

Title: Rolling Stock Replacement

Improvement Type: Transit System Improvement

State Route: 0

Municipality:

Air Quality Status: Exempt from Regional Conformity Analysis

Actual Construction Bid Date:

Estimated Construction Bid Date:

Location: Harrisburg MPO  
Dauphin, Cumberland, Perry Counties

Project Description: For FFY 2021-2024 TIP

Capital Area Transit's 2021-2024 funding reserve for the Harrisburg Metropolitan Planning Organization (MPO) (Dauphin, Cumberland, Perry Counties). The HATS MPO allocates a portion of their Congestion Mitigation Air Quality (CMAQ) funds to Capital Area Transit to assist in the cost of operating their transit agency. These funds will be flexed from the MPO's Highway/Bridge TIP through to the Transit TIP after October 1, 2020.

FFY 2021 - The funding will be used for the procurement and replacement of transit vehicles under this FFY.

For FFY 2023-2026 TIP

These Federal funds will be used in coordination with MPMS # 116733 CAT Vehicles and MPMS# 102482 Transit Bus Purchase. Specific vehicles to be replaced will be determined based on condition of the vehicles in the fleet and recent maintenance history at the time of arrival of the replacement vehicles. Replacement eligibility follows the Estimated Useful Life (EUL) criteria found in FTA Circular 5010.1E. All vehicle replacements include the cost of the bus and other systems and equipment necessary to operate service including, but not limited to: security cameras, fare collection systems, radio communication systems, head signs, CAD/AVL, etc.. Projects occurring under this MPMS number will assist in meeting CPTAs Transit Asset Management (TAM) Plan Goals and Targets under the FTA mandate.

**Project Administrator:** PennDOT

**Title:** CAT Employment Access

**Improvement Type:** Transit System Improvement

**State Route:** 0

**Municipality:**

**Air Quality Status:** Non-Significant: Not included in regional conformity analysis

**Actual Construction Bid Date:**

**Estimated Construction Bid Date:** 4/5/19

**Location:** Harrisburg and York Cities.

**Project Description:** Previous TIPs

This proposal is a joint effort between Capital Area Transit and rabbitransit.

The service delivery will be shared 50/50 by the two systems. Private employers have offered to assist in the funding of the service. This project creates a route to connect Harrisburg and York to address the need for expanded workforce in both regions - this project serving the HATS MPO portion of the route/service.

The route will connect the Harrisburg Transfer Center to the York Transfer Center with three large employer connections in between: FedEx Ground, ES3, and Harley Davidson. The connection to the transfer centers allows easy movement from one transit system to the other and allows for the connection to both of the urban fixed route transit networks.

FFY 2023-2026 TIP

Funding will be used in coordination with MPMS# 113077 from the YAMPO TIP for a demonstration project to provide access to employment centers along the I-83 corridor between York and Harrisburg beyond the current rabbitransit or CAT fixed route service areas.
